

INTERACTIVE WHITEBOARD FLIPCHART & ACTIVITY – 25 POINTS

You will be provided with a standard or group of standards at a particular grade level in social studies to design a flipchart and game using the SMARTBoard software *Notebook*.

Part I:

Flipchart

Briefly research the content for your standard to refresh your memory. Create a flipchart with at least 6 slides (pages) to be used for teaching students at the grade level indicated by the standard. Use pictures, sounds, animation, etc. to make the instruction engaging. Include the spi(s) (or accomplishment for Grade 2), lesson objective, and “I can” statement on the first slide.

Part II:

Game

Depending upon your standard(s) you will either select 10 vocabulary words and definitions or select at least 2 or 3 categories and examples for sorting/matching and create a game for them using the built-in templates in the “Lesson Activity Tool Kit” - “Activities” folder. Options include:

- Multiple Choice (Good for a variety of question types & subjects)
- Word Biz (Good for vocabulary and fill in the blank)
- Anagram (Good for vocabulary, fill in the blank, important dates)
- Word Guess (Basketball, Soccer, Tomato Splat) (Good for vocabulary, fill in the blank, important dates)
- Image Select (Good for vocabulary which can be represented by pictures)
- Vortex (Good for anything that can be divided into 2 categories; i.e., wants & needs)
- Keyword Match (Good for vocabulary, matching, etc.)
- Category Sort – Choose 2 or 3 categories
- Pairs – good for anything that can be divided into pairs
- Hot Spots – Choose from world map, human body, grid, custom (drag target to correct location)
- Image (Good for anything divided into 2 or 3 categories)
- Category Sort – Image (Good for anything divided into 2 or 3 categories & the use of images)
- Image Match – drag correct answer to image (Good for matching)
- Other games are included

If you aren't sure how to edit a template just by looking at the blank template, click on the “Examples” folder (just below the “Activities” folder) and look for the same activity.

Upload both documents to the wiki on the IWB tab.

Grading Criteria

	Points Possible	Points Earned
Flipchart		
Includes standards, objective, and I can statement on one slide/page	2.5	
Includes at least 5 slides/pages with instructional content appropriate for assigned grade level. Content is meaningful and engaging.	7.5	
Game		
Selects an activity template that aligns well with assigned standard	2.5	
Includes at least 10 terms/definitions or 2/3 categories with at least 10 terms to sort	7.5	
Documents are free of errors (such as grammar and spelling)	5	
Total points	25
